# Décor, design and details put life into every Perspective interior

Pianosi Development's stunning Etobicoke community complements contemporary life

Approach Perspective, Pianosi Development Corporation's gorgeous Etobicoke community, and the first thing you'll appreciate is the beauty that surrounds it. Set off by a stunning Humber Valley location rich in parkland, trees, flowers and miles of trails, Perspective offers a contemporary lifestyle option in a lush natural setting surrounded by every imaginable urban amenity. But it's what's inside that will really set your imagination alight.

The two towers of Perspective 1 & 2 share a sophisticated, yet comforting esthetic that carries through from the entrance to the rooftop.

At ground level, it's exemplified by a welcoming lobby you'll love coming home to, and a range of amenities that will get your heart racing one way or another — by taking advantage of active options with a few laps in the indoor pool, a workout in the fully outfitted fitness centre, or some hard swings in the golf simulator, or simply by the sheer loveliness of the inviting

textures and colour palette.

The stylish lounge, guest suite and media room with fully integrated home theatre are just as tempting, with the same attention to designer details you'll find throughout Perspective.

Up on the rooftop, spectacular views across the treetops to the city lights beyond provide the only visuals that could compete with the stunning design. Outdoor cabanas, large screen TV, barbecues, shaded dining areas and a comfortable seating area next to a Zen-inspired waterfall offer an exceptional setting to gather family and friends.

"The interior design was inspired by the abundant surrounding ravine and parklands, thus the colours of nature are interpreted with an emphasis on texture

rather than tone. We selected various stones, wood and natural fibers that reflect the outdoors," says project designer Liz McKay of Bryon Patton & Associates, the community's

award-winning design firm.

"Both buildings are comprised of a common neutral palette with elements of traditional detailing that add to a peaceful, relaxed and elegant

atmosphere."

Each suite at Perspective is designed with the same meticulous attention and commitment to excellence as the common areas. The kitchen is the core of any home, a hub of family life and, like a people-magnet, attracts every guest who wanders into its orbit. A great kitchen makes a great home — and the interior designers at Perspective make great kitchens!

Taking their cue from sleek, European design, the wonderfully tactile mix of materials including stainless steel appliances and custom designer cabinetry make these kitchens real show-stoppers, especially with the nine-foot ceilings that extend well beyond the upper cabinets to give every unit a spacious, soaring feel.

The Bryon Patton design team excels again with luxurious master bedrooms outfitted with custom vanities and deep soaker tubs in the master ensuite. As functional as they are beautiful, most suites also give residents the stress-busting convenience of sink-equipped laundry rooms with full-size, front-loading washers and dryers.

Already under construction, suites at Perspective start at just \$279,900 including parking, locker, and inimitable style! With Pianosi, the beauty of Perspective is backed by decades spent making a reputation for quality construction and development, both with residents and with Tarrion, Ontario's new home warranty program. Pianosi has been building residential, retail, commercial and industrial complexes in Ontario since 1948, and the company is still run by the Pianosi family today.
